### Our Country.

"Our Country, *right or wrong*," will do for the rhapsodies of poets and the rhetorical flourishes of Fourth of July orators—but it is a maxim unworthy the enlightened reason of honest citizens of the age in which we live. "Our Country, *always right*," should be the motto—and the only way to make it so, is to abjure the loose aphorisms of the doubtful moralist, or the *professing* patriot, and elevate the standard of individual honor and integrity to a higher din than now which is circumscribed by mere national outlines. The latter way, on the other hand, to make her wrong, or continue her in such a course, is to "be to her faults" not only "a little blind," but *utterly* so—and adopt as our practical maxim, the atrocious one that "the end justifies the means," and national patriotism supersedes universal morality.

A nation is an aggregate of individuals, and national rights the aggregate of individual rights. The world is but an aggregate of nations—and, on the broad scale of philanthropy and human brotherhood, national lines of demarcation and division are obliterated. In this view, national wrongs should no more be tolerated by us, towards any other country, than State wrongs should be justified by one State of our Union towards another—or family wrongs by one family towards another—or individual wrongs by one person towards another. "Our Country, right or wrong," is a plausible motto—but becomes less so when reduced to our State rights or wrong—still less so when brought down to the domestic standard, our FAMILY rights or wrong—and the tables would be completely turned, should an individual standard blazon forth the practical motto, MYSELF, right or wrong! We should clearly see it is duty, before bow amidst our sympathy or aid, to be as precautionary at least as David Crockett—"Ask to be sure he's right—then go ahead." So of a family confessedly wrong, or not stopping to enquire whether they were right or in their hostility to a neighboring family. However much we might concede to the power of filial attachment, none of us would justify so near an espousing the unjust quarrel of his best beaded and belligerent father. The false prophet goes for his religion, "right or wrong," and carries his deluded followers with him—the heathen for his idolatrous and savage customs—and the pirate for his plunder,—but neither the prophet or his followers, the heathen or his worshipped, the pirate or his comrades are justified—if, knowing themselves to be wrong, or not being satisfied, nor using the light they possess in order to be satisfied, that they are in the right.

BANGOR, July 26.

*Mr Baxter*

I notice in your issue of this morning an explanation of the reason why the name of Flagstaff was given to the town bearing that name. The true reason was this. When Arnold with his army reached the above named township he encamped for the night, and before marching in the morning, some of his men ascended a tall pine which stood upon an elevated spot, and cutting off the top of the tree near its summit, they bored a hole and inserted a flagstaff, to which was attached the American flag, and then, as they descended the tree, they trimmed it perfectly smooth, and this flag was looked back upon as a landmark as they passed the distant highlands in their toilsome march towards Canada. And long afterwards, when the winds of Heaven had scattered the bountiful banner in fragments in the solitary forest, the naked trunk of the pine was known as the Flagstaff, and at length the township had called by the same name.

Such are the facts as I learned them several years ago of an old man (then nearly an hundred years of age) who resided at Waterville at the time when Arnold made his brave march up the Kennebec, an event which will live as long as true heroism has admirers. And this incident, although trifling, is a part of that eventful but disastrous enterprise.

Yours truly, I. W. P.

### Scenery at Moosehead Lake.

A correspondent at the foot of Moosehead Lake writes us as follows:

The upper portion of Moosehead Lake is said to have many points of interest, although at the foot (so called) one would hardly be paid for a visit, as the scenery there is grand beyond any power of description.

It would be well for the people of Maine to learn something of their own State from actual observation. It is with beyond all conception in natural charms and varied scenery, which a benevolent Creator has so lavished upon many portions of the State, proclaiming His power, goodness and love as no human language can do.

Moosehead Lake is certainly one of the loveliest spots to be found, and it is not surprising that it has become a favorite resort to the tourist, seeking natural beauties, or the sportsman in search of his game.

### LOCAL AND MAINE NEWS.

The Brick Chapel Sabbath School Excursion will take place to-morrow. But said the weather be in to-day as it will take place the next pleasant day. The boat will save as first class.

T. SMITH, Sec'y

BANGOR THEOLOGICAL SEMINARY. On Monday A. M. the examination of the classes commenced, with the Juniors, in Hebrew, by Prof. Smith.

The Graduating Class sustained themselves creditably in the afternoon both as to *sermonizing*, under Prof. Shepard, and in *Ecclesiastical History*, under Prof. Pond.

In the evening the anniversary of the *Reformed Society* was public at the Central Church, before a large audience. The following was the order of exercises:

Anthem
Prayer by Rev. J. T. Hawes, Belfast.
Solo and Chorus.
Individuality.—Lewis O Bostwick, Brewer.
Our National Position and Consequent Duties.—Roland B. Howard, Leeds.
Quintette.
Reflection, the Life of the Soul.—Edwin B. Palmer Belfast.
The Reasonableness of Faith.—Edwin P. Parker, Belfast.
Solo and Chorus.
Benediction by Rev. Dr. Tappan, Augusta.

Our *impromptu* comments on the pieces were as follows:

No. 1. The theme required thought, and the effort was very creditable, in matter and manner, tho' rather too transcendental to be appreciated.

No. 2. The speaker was self-possessed, as was No. 1, and gave a well written essay, abounding in excellent practical ideas, with fine effect.

No. 3. This production by good fine scholarship and well invested thought. The delivery, though good, was somewhat too tame.

No. 4. Al Parker-ish of the right stamp.—He will make his mark in the world, if he lives long enough. His subject the "Reason as cause of Faith," though metaphysical, was made remarkably clear, practical and instructive. His rhetoric was formible, and of a high order. It was the *closing* piece of the evening.

The music by Messrs. Merrill and Gordon and Mrs. Brown and Miss Merrill, with Mr. Tracy at the piano, was fine, and added much to the interest of the occasion.

On Tuesday A. M. an interesting review of the Middle Class in *Biblical Theology*, by Prof. Harris, was made.

All the recitations were creditable.

Rev. David B. Sewall of Robbinston, delivered the Alumni Sermon on Tuesday afternoon at the Hammond St. Church.

The exercises of the Graduating Class, this forenoon, at the Central Church, will be as follows:

Music.
Prayer.
Music.
Poem by the Class of Delabi ty.—Jonathan B. Adams, Boothbay.
Faith as Divine Intuition only.—Edward H. Buck, Fa. ie, N. H.
High Aims.—James H. Pitts, Candia, N H.
Music.
The Reward of Study.—George E. Freeman, Liverpool, N S.
The Hall of All the Ages.—Edward Lawes, Bradford.
Theology as Authenticated by Experience.—P V. Norcross, Dixfield.

The Children of Wash.—John L. Sewall, Westbrook.
The Eloquence of Martyrdom.—George I. Shepard, Bangor.

This afternoon, the address before the Society of Inquiry on Missions, at Hammond St. Church, will be delivered by Rev. Henry D. Moore of Orland.

In the even ng there will be a social gathering of the Alumni and their friends in the vestry of the Hammond Street Church, for singing, brief addresses &c.

DISCOVER FARES OF BIRDS AND PIT CANARIES.—Two neighboring farmers in Kendaskeag, who were starving as they supposed, solemnly vowed, if to produce the largest yield of corn to town, were not only stopped in their career, and had their spirit of competition subdued by a furious yet narrow contracted hail storm, which recently passed over the town. The storm cloud was about a quarter of a mile in width, nearly wide enough to cover the two fields, and strange enough, entirely destroyed both crops!

THROP CANAL COMPANY.—This Company was organized yesterday, by the choice of the following officers:

*President*—E. M. Cobb.
*Secretary, Treasurer and Collector*—J. N. Chandler.
*Directors*—E. S. Cox, Elias Dwight, Asa Rogers.

A NARROW ESCAPE.—Henry H., son of Moses Wooster, of Columbia, about 6 years old, while out to play with some boys at the river, near the head of Sand Pails, accidentally fell in, and, by the current was very rapidly carried down the whole length of the falls. He was seen as he went over by some persons on the bridge, and by the utmost exertion of two men, Alpheus Dow and Ab Webster, he was rescued from a watery grave.—*Machias Union.*

### Local Items.

Capt. E. A. Upton & Co. of this city, brought yesterday, two thousand eight hundred and forty-eight pounds of raspberries. They were brought and used for making jam on the Portland market.

HORSE TAKING.—Mr. George Williams has been in this city a few days, engaged in the business of horse taking. We have witnessed the process and it is our belief that more can be accomplished in one day by his method, than in many months by the old, and what is better still, with a certainty of success. And all this is done without whipping, or the use of any agent that will be of the slightest injury to the horse. A spirited young Drew Colt, belonging to Dan'l. White Esq., of Orono, was placed in Mr Williston's charge on Monday. The animal kicked and thrashed so that it was impossible to shoe him with safety, and almost impossible to accomplish it at all—Tuesday afternoon he was taken into a back shop and shod, and he was to gent a as any old horse. This is a case under our own observation and we cannot help considering it a very useful art.

STORE BURNED.—The cellar connected with the confectionary store of Mr. J. A. Wallis, on Harlow street, was broken open on Sunday night last and a few dollars worth of goods stolen. The rogues did not succeed in getting up into the store.

The store of John A. Buck & Co., of Orland, was broken into last week, their safe pried open, and some two hundred dollars in money and a lot of Town Orders taken. No clue to the perpetrator has been found.

LIGHTNING IN NEWBURG.—SHEEP AND CATTLE KILLED. In the thunder shower of Tuesday evening, July 20th, ten sheep and three young cattle, belonging to James Morrison, were killed in Newburg. These animals were in a pasture some distance from the house, and were not discovered for a day or two. They had gone into the edge of the bushes to get out of the shower, and were standing in a row near a fence. The most singular and almost incredible part of the whole is, that none of the sheep were left standing in their tracks and were so standing when found.—*Times*

The St. Stephen's Herald says that the St. Croix river is being filled up with edgings, lumber, sawdust, &c., steamboats that formerly came up to Calais, are now obliged to stop below at certain seasons; and calls upon the citizens to take some measures to remedy the evil.

EASTERN RAILROAD COMPANY.—At a meeting of the Stockholders of the Eastern Railroad Company, held at Boston on Monday last, the following gentlemen were chosen Directors:—John Howe, Samuel Cooper, George M. Brewer, John C. Lee, Nathan D Chase, Micajah Lurt, Henry H. Ladd.

SUICIDE.—In Boston, on Friday, a young man, 21 years of age named Frederick T Bien, a native of this city, a sailor connected with the ship Mary Merrill, was found suspended by the neck, dead, in the cellar of the house of Bernard Hamlin, No 38 Fleet street, where he had been boarding. No cause is known for the rash act.

A horse, the property of a Mr. Wm. Miscalonay of this city, dropped dead yesterday near the Gas Works. On Sunday the horse got loose in his stable and ate a half bushel of dry meal, and drinking water freely next morning occasioned his death.—*Bath Tribune.*

Mr. John Robinson's house, barn, and outbuildings, at West Lubec located on the southerly side of the road near the Baptist Meeting House, were burned last Wednesday afternoon. The fire is supposed to have caught from some defect in the chimney. Part of the furniture saved. Loss $1000. Insured $700.—*Machias Union.*

QUITE A VENTURE! Mr Daniel Joy arrived at Lubec, July 19th, in just nineteen days from Labrador. He made the voyage in a small open boat, accompanied by a boy. It seems that they were there in a vessel which was blown away, but escaping themselves, they made their way home as above stated. The distance is 1200 miles.—*Machias Union.*

FIRE. The dwelling house, addition and shop of Mr. Isaiah Emerson, in Hampden, were destroyed by fire on Wednesday morning, July 14 h, with all their contents except a few articles of little value. Loss estimated at $1200, insured $875.

MAINE FARM BROOM.—The Eastport Sentinel says that according to present prospects Maine can supply the with from one-third to a quarter more than her entire consumption, and of a quality superior to that here before brought into the State from abroad. The Portland Mining company are about to commence operations in a Jonesboro quarry in Perry, specimens of which have been examined by competent judges and by them said to be an excellent quality.

The funeral of the late Major Gen. Cox, of the Post Office, was largely attended on Saturday afternoon. The services were held at St. Stephen's Church—and the citizens, who left their usual avocations to pay the last and solemn of respect to the memory of the deceased, filled the church. The body was interred in the Eastern Cemetery in the tomb of the father of the deceased. [Boston Journal of the Post Office was closed during the rites, and the entire force of the office was in attendance upon the funeral of their lamented and virtuous associate—several of whom had been for years associated in the Post Office with him.—*State of Maine.*

Sergeant Smith, Buchanan paper. About 2 o'clock Sunday morning, the schooner Wm. O Cooper, Captain Wood, of and from Rockland, ran on to a ledge of wood, grounded on the edge of a deep channel, being out by the City of Boston to connect with the entrance to the water course, and fell side ebbed the vessel was thrown on her beam ends and sunk in the water about ten feet deep at low tide. The captain and crew were awakened by the catastrophe and succeeded in gaining the shore without much severe saving any of their clothing or stores. The vessel had on board about 40 cords of wood, a large portion of which was set adrift and strewed along the shore, and floated up the channel. The crews of the several schooners lying at the wharves, with the exception of the schooner Kosciusko of Thomaston, Me., generously assisted Captain Wood and the men in landing a portion of the floating wood to it, or destination. The captain of the above named schooner, employed himself and his crew in picking up the wood and procuring it upon his own vessel, against the remonstrances of Captain Wood, who, we learn, intends to seek redress of the city of Boston, for the damage he has sustained in the sinking of the vessel.

Capt. Alfred Rollins, of thatch. Knox Co. of Thomaston, Me., previously mentioned as having picked up a quantity of floating wood from the Wm O. Cooper, was brought before the Police Court yesterday morning, on a warrant charging him with larceny. The charge was fully sustained, and he was held with bail in $3 and costs, amounting to $9.94, on condition that he landed the wood which he picked up upon the wharf. He complied with the decision of the Court.

EXECUTIVE PARDONS. The frequency of these mishaps gives point to the following incident. An ex-Governor of Pennsylvania was running against in a crowd the other day, by a gentleman who promptly said "I beg your pardon, sir," "I cannot be granted, sir," was the quick response, "I am no longer Governor."

### A Southern Confederacy.

Hon. William L Yancey of Alabama and Gen William Walker of Nicaragua, recently met at a barbecue in the former State. Of course the conjunction of two such planets in the middle of July produced an immense amount of heat, while the overplus of light had nearly the effect of darkness. The *Gem.* Will and unfolded his personal wrongs and blessed away at the administration. The *Hon* William, moving in a larger orbit, exposed the grave and wrongs of the South and essayed to break up our present confederate system, and out of its ruins to launch a new nation upon the gaze of mankind. The former, we are told by the local newspaper, "made a decided impression upon the minds of his auditory, but the latter moved them to action. "Southern League was formed on the spot, and "a number of signatures then and there gave the first tap to the minute but momentous entering wedge of the disunion of these States. The audacity of this little knot of barbecue-men puts us in good humor with them. Still, we hardly think it worth while to describe their League very particularly—Suffice it to say, that it declares, "our motto shall be, 'A Southern Republic is our only safety,'" that it contemplates an ascending series of primary leagues, State leagues, and a league of the Southern States; thus five men, or more, make one primary league, any number of these make a State league, and all the latter they can get make the great statute or geographical league of the Southern States; and finally, that "each league shall vote according to its own conscience—remembering always its duty to the South."

But we dismiss this irresponsible project to the care of the democratic party, in connection with which Mr Yancey, in his speech, advises his followers to continue mum. He has no confidence in *national* parties any way, and hence probably his aprobation of the Democracy. He acknowledges the administration has done all it could for the South, "and only paused when its own destruction would have been the result of persistance." His hope is, therefore, to construct ultimately a party which shall not be liable to the interference—but can go all lengths in behalf of slavery without any risk of remonstrance within its own ranks. The Democracy can thus decide for itself whether it will improve itself up to Mr Yancey's standard, after pressing him thus far, or whether it will retain him and have recognized members of the party until they have had time to organize their Southern Confederacy. But our main object in returning to Mr Yancey's speech is to quote his review of political tendencies and prospects. I is advisable to learn from all sides, at least to hear from all sides, and we think that the following extract will be found by our readers to be quite truthful and by no means so gloomy as Mr. Yancey appears to feel it to be.—*Boston Journal.*

"Who here believes that a foot of all those magnificent territories—Kansas, Nebraska, Oregon, Washington, Utah and New Mexico—will ever be under the government of pro-slavery constitutions? There was once a hope, once a fair opportunity, for gaining for the South one splendid, new pro slavery State—Kansas, but from the beginning to the end of executive and legislative action on that question by federal authorities, there have been a series of errors which have lost to us that only opportunity. And now the South stands in the Union, upon the question of territorial extent, precisely and prospectively, far different from what she did in 1784. Then she had more territory than the North, with a reasonable hope of great future progress. Now she sees not a foot of public domain out of which she can reasonably hope for the formation of a new pro slavery State, while in the Union she has but fifteen out of the thirty-two States. The North, territorially the wrong one in 1784, now has seventeen States in the Union, and enjoys the almost sure prospect of adding to that number in the future every new State that shall apply for admission. The advance of the anti slavery sentiment has been steady. It has covered the whole North. It has made parties and administrations tower before its fierce demands, and not only holds within its grasp all the Territories, and all future extension of the Union, but it has crossed the line. The rubicon has been passed. It is now contending with the South for the possession of Missouri. The question is made to-day in the St. Louis district in that State by Mr Blair."

WHALING ITEMS.—Eight whalers have arrived at this port during the present week, viz: Two Brothers, Leonidas, Atkins Adams, General Scott, Alfred Gibbs, Betsy Williams, Napoleon and Reaper. Three of the number will lose to their owners from $50,000 to $70,000.

From Thursday to Friday morning of this week, three spouting whalers have arrived at this port, bringing of their own catch and including that of Holmes, 4500 gals. of sperm oil—a rather unusual quantity to arrive in less than a space of time.—*New Bedford Mercury*

The editor of the Buffalo (N. Y.) Republican, some time ago found out where the Know Nothings assemble, and the peculiar method by which they manage private observation. The place is a newspaper office in the town; the entrance to which is a hole just large enough to admit the body of a man. The last one to take the hole being with him, and then step daily detection. Very they get out, nobody knows, but when they adjourn the guardian takes the hole home with him.

MEXICO.—There are indications of a disturbance in the relations with Mexico. Our Minister, Mr. Forsyth has been called home, but whether upon general discontinuance or from any sinister acts objectionable to the Administration, does not plainly appear. In the meantime, a feeling is said to be gaining strength at Washington in favor of obtaining more Mexican territory, or of extending a protectorate over the country. The urgent representations of a talented man like Gen. Houston, and the approval of the schemes given by the leading press of Great Britain, have turned the tide in this direction, notwithstanding the poor state of the national finances. Of course the ill-mustered element is awake to the opportunity, and consequently we hear but very little now of filibustering in Cuba. Symptoms of revolt are reported to exist in certain of the Northern Mexican States, and it is alleged that enterprising American adventurers have been made from that quarter. The rumor receives support from an order issued by Zuloga to concentrate troops on the frontier, which however, in the present distracted state of Mexico will probably remain unexecuted. But the order may be used as a pretext by those who are bent upon creating disturbances.

In this connection we give, as a matter of some interest, an estimate, made by a writer in Mexico of the troops now employed in the Republic, viz:

| FEDERAL FORCES. | |
|---|---|
| In Zacatecas, under Zuazo | $ 500 |
| On the frontier under V durri | 2,000 |
| From Michoacan, under Parrilla, &c. | 4,000 |
| Pintos (sons Guerrero) | 3,000 |
| Near Guadalajara, under Blanco and Degollado | 3 000 |
| Tamaulipas, under Garza, &c. | 1 500 |
| Oaxaca, for Federal State Government | 1 500 |
| Vera Cruz and Perote | 3,000 |
| Total Federal forces in the field | 21,500 |
| GOVERNMENT FORCES. | |
| In Mexico and Toluca | 2,500 |
| In Puebla and thereabouts | 2,000 |
| In Jalapa, Orizava and Cordova | 2 000 |
| In Tampico and thereabouts | 2,500 |
| In Mazatlan, under Yanez | 1,000 |
| In San Luis | 1 500 |
| In Guadalajara | 4,500 |
| Scattered under Vicario, &c. | 2,000 |
| Total Government forces | 18,000 |

In this enumeration the writer makes no mention of the troops of Gen. Peachiera in Sonora, the militia of Chihua ua and Colima, the army of Alvarez, and the various parties in Yucatan.—*Boston Journal.*

DEPARTURE OF MISSIONARIES. In the ship Brutus, which left port yesterday, there were Rev IN. Harris, wife and child, and Miss Calista Vinton, whose destination is Rangoon, in Burmah, whither Mr Harris returns under the auspices of the American Baptist Free Mission Society. Miss Vinton is a daughter of the Missionary of that name, who after twenty years of service, died in Rangoon last April. She is a native of that city, and now returns at the request of her brother, who chooses to remain at the field of her early labors.

The departure of Mr Harris was made the occasion for appropriate religious services at ten o clock on board the ship.—*Boston Journal.*

A "DOMESTIC ROMANCE."—A few days since a wealthy democrat in the employ of one of the great families in the Nineteenth Ward, met with most singular good fortune in being united in marriage to a wealthy Southerner. The story is, that the Southerner was in some romantic manner smitten with her charms, and proposed marriage, when he was promptly accepted. The fair domestic went to her mistress and tearfully resigned the charge of the kitchen, stating that she intended soon to assume the duties of the parlor. She then departed in a carriage, and soon after returned in full dress, proceeding to dispose of her former mistress to her less fortunate friends. She was soon after married to her "lovyer," who turns out to be a wealthy Southerner, with plenty of property in the Southern States.—The names of the parties have not yet transpired.—*N. Y Tribune.*

The Louisville (Ky.) Journal, in reply to the Charleston Mercury, which said that "of the recent message for the reception of Senson Cuttenden in Kentucky are the reflex of the feelings or opinions of the people of that State, she may as well be stricken from the roll of Southern States," says:

"We tell the Mercury and its friends that they cannot, by what they call striking Kentucky from the roll of Southern States, change either her latitude or her institutions. Here she stands; and if any of the fire-eating States attempt to escape from the Union, she will throw a hempen lasso about their necks."

A SHOWER OF FISH. A recent number of the St. Louis Democrat says:

"On the down trip of the steamer Editor in the Illinois, the other night, at 9 o'clock, a shower or stream of the Mormon or Shad fly poured upon her decks to the depth of six inches, and it was a very difficult matter to shovel them overboard. They were so numerous as to put out the watchman a light and envelop everything in midnight darkness. The trees along the shore look as if borne down by these short lived insects. The visitation is said to prognosticate a sickly season."

KILLED. Thomas Golding, a seaman on board the schr Henrietta, Capt Gulliver, belonging to Bangor, Maine, and bound from Baltimore to Boston, was instantly killed on Sunday, the 18th inst, when off Cape Henry, by falling from the main head of said vessel on the Captain immediately put back to Hampton, where the deceased was decently buried. The deceased, we understand, leaves a wife and family to mourn his loss.

The Salem Observer states that a white robin, something new under the sun, was observed recently on two or three successive days in a garden in that city.

The ship Great Republic has been chartered to go but to San Francisco with coal, at $12 per ton.

DIED,

In Upper Stillwater July 24th, Sabrina Richardson, aged 73 years, July 26, George Shaw, aged 56 years.

# TELEGRAPH.

TO THE DAILY WHIG AND COURIER

## Later from California

ARRIVAL OF THE

## Moses Taylor!

AT NEW YORK.

New York, July 27.

The steamer Moses Taylor arrived to-day with later California dates and $1,200,000 in specie, and 300 passengers. She left Aspinwall on the evening of the 19th, and connected with the Golden Gate, which brought California dates of July 5th.

The Fraser River excitement is intense.—Reports from there represent great success by the miners. One letter writer, vouched for in San Francisco papers as reliable, says his daily yield at the mines was $100.

Lots in Victoria run up as high as $2000.

The Hudson Bay Company was paying dust at $18 an ounce.

Trouble from Indians is anticipated. They had begun to molest the emigrants on their way to the mines. A party of 10, encamped near Schone, were attacked and six killed.—Twenty-two canoes, filled with Indian warriors, were passed going into Victoria by the steamer Sea Bird, and 200 more were on their way and daily expected at that port. It was feared the mining region would be overrun by these warriors, and that indiscriminate massacre would follow.

In Oregon and Washington Territories, the Indians were assembling in large numbers.—Large forces of the U. S. Army were being sent thither.

Emigration from San Francisco is immense. Fourteen steamers and sailing vessels left San Francisco during the fortnight for Fraser's River.

The California news is unimportant.

The Supreme Court had decided the Sunday law unconstitutional, and all prosecutions based on it had been abandoned.

Heavy fires occurred at Oroville and Stockton.

At San Francisco, business was very active, and all kinds of miners' goods, shoots, shoes, clothing and blankets were sold before arrival, at very private terms. Some prices, however, had improved, as follows:—Mess pork sold in lots at $34 a $35; clear do. $35 a $37 50; prime $32,50. Hams had advanced, and were at 22½ a 24c, in bags and movers. Butter, choice, 37½c. Sugar active, with no improvement in prices. Tea and coffee quiet. Rice unchanged. Large sales Boston Syrup at 62½c. Eastern corn meal to arrive, $7,50 a $8. Boots and shoes in request at improved prices. Breadstuffs doing well, notwithstanding the certainty of a profuse harvest; sales of Eastern flour at an advance of 50 per bbl. The Money market was active—Most loans at 12 per cent. from us.

Advices from Oregon state that the Indians of the Upper Columbia are collecting in large numbers, the object unknown.

The state election had resulted in the choice of a whole Democratic ticket.

Advices from both Oregon and Washington Territories mention a general gathering of Indians in that region, with evident hostile intentions. The commander of the Pacific army is forming that or all the troops at his command for their number and equipments are wretched and inadequate.

The line between Aspinwall and Havana is discontinued. Hereafter all Aspinwall steamers will stop at Key West.

The brig Catalina was to leave on the 19th for San Juan.

Advices from Valparaiso are of June 16.

There is no news of striking importance.

Bolivia was unsettled, and the government feared the return of Belzu.

President Linares was becoming very unpopular. He had banished many of the best citizens, and others were selling their estates and leaving for Peru.

The Cass Herrera treaty has been rejected by the Congress of Carthagena., A boarer of dispatches was en route for Washington.

### From Washington.

Washington July 27.

The mails from all points at late as due, are in total.

The shipper's cotton press at Galveston was partially burned on the 14th inst. including sixty bales of cotton. Loss, $2,500. Insured. Not covered, in northern offices.

Reports of the cotton and corn crops in Texas are satisfactory.

The steamer Atlantic, at Key West from New Orleans, reports the total loss of the ship Northwest.

The ship Ontario is to take the cargo of the Sutton, which vessel is still at Key West harbor with a steam pump on board.

### From New York.

New York, July 27.

The U S sloop of war Brooklyn was launched this forenoon.

The crew of the ship Cordelia have refused to go to sea, stranded for mutiny.

The U S frigate Merrimac was at Fayal, June 29, all well.

Advices from Buenos Ayres are to June 10.

Business was dull, and but little produce coming in.

The country was quiet.

Advices from Port au Platt are of July 14.

Business was very dull.

The market was glutted, with all kinds of merchandise and provisions.

Specie was very scarce, people having lost all confidence in the government paper money, and exchanging it at the rate of $150 for $1 specie.

### From Kansas.

St. Louis, July 27.

Fort Leavenworth advices of the 24th, per Express to Bonneville state that great damage had been done to the crops in the interior, by the late heavy rains. Several bridges had been carried away, on the Fort Riley road, as had also a new bridge across the Kansas river at Topeka by the heavy rise.

Numbers of teamsters are arriving from Utah, having been detained at Camp Scott during the winter and spring by insufficient means of transportation.

### Various Items.

New Bedford, July 27.

The ship Hamilton, Capt. Fitzgerald, arrived at this port, reports passed Wood's Holl at 2 o'clock this afternoon, and the ruins of the Nanshon house were still burning, the building having been burned to the ground. The steamer Eagle Wing lay at the wharf rendering assistance.

Boston, July 27.

Two men named O'Brien and Cain were suffocated in a well in Somerville yesterday by which they descended to clean a vault. Both leave families.

The annual school festival of the medial scholars of our public schools, took place this afternoon at the Music Hall, which was decorated appropriately for the occasion. The exercises consisted of speeches from Gov. Banks and other distinguished citizens, accompanied by Mayor Lincoln of a bouquet to each pupil.

### Treason in the Democratic Camp.

The Washington States, one of the minor organs of the administration at Washington, presumed some serious charges against Hon. John Appleton Assistant Secretary of State, and reported at ten of the Union. It says charges are made as to Mr Appleton of corruption, of using his position and influence to put money in his purse to the tune of ten thousand a year, or more and calls upon Congress for an investigating Committee to inquire into the facts of the matter, and expose the truth to the public gaze. The charges are, that Mr Appleton obtains, in addition to the very handsome salary of the office, some few thousand a year, more or less, from Cornelius Wendall, as supervisor or writing editor of the Union, which Mr Wendall publishes; and that Mr Appleton now is in connexion with President Buchanan and the members of the Cabinet to obtain, for Mr Wendall's benefit, the binding of all their Executive Departments as well as all their advertising patronage. The law is explicit and was recently framed to meet the case, that the Executive Departments should give out their binding patronage to practical and competent *binders*, and to none others. Mr Wendell is simply a *printer*, not a *binder*. Mr Appleton and the Cabinet Ministers all know this and yet they trample the law under their feet, on the plea that "The Union must be preserved."—*Sumter Journal*.

Death of a Bath Man.—A. G. Benson, of Bath, passenger, died of consumption, on the passage from Sandee and on board ship D. Alyman.

---

Remarkable Instinct or Affection.—On Saturday, the 10th instant, an infant of M. C. Green, in Culpepper county, Va., died and on the next day June at the age of three years, 4 years old, expired. The very existence of the mother, says the Blue Ridge Republican, seemed bound up in that of the child. She never left her from the time she was taken sick until the moment of her death, and in twenty-four hours after they lay under the same roof, child and nurse, silent sleepers in their coffins. From the moment the child breathed its last, she seemed to lose all interest in things around her, even her destitute itself, and remained in a kind of trance up to the hour of her death. When asked if she was willing to die she said, "Yes, I have seen that child in the Saviour's arms, and I want to go too."

---

Cross Words.—A gentleman from this city who is roaming in Europe, proposing visiting Naples, but was informed by those in authority that his name appearing as one of the subscribers for the cannon presented to Garibaldi, from the citizens of Boston, he could not permitted to "see Naples and die" in contempt of delight, as other strangers have been reported to do. All the gentleman's explanations and remonstrances were unavailing, and he was forced to go another way.—*Gazette*.

5th and 20th of each month.

*Through Tickets, including transit of the Isthmus, via. Panama R. R.*

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense.* This is the *only* line giving entire Through Tickets, including meals, on the Isthmus.

## American & Foreign Patents.

**R. H. EDDY,**
**Solicitor of Patents.**
*(Late Agent of U. S. Patent Office, Washington under Act of 1837.)*
76 State Street, opposite Kilby st.,
BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same.—Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber, during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of Patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor for procuring patents.—There were few, if any, persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.

(From the present Commissioner.)

"August 12, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.
CHARLES MASON,

## American Safety Paper

### Manufacturing Company of N. Y.

**Capital $500,000.**

A. NICHOLAS, President. Office, 70 Wall st

*A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations.*

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no alteration can be made on a check or bank note printed on the Safety Paper. Below is our list of prices;

Bank Checks—36 cts. per lb.
Bank Bills—$ 8 for 1000 sheets.
Bills of Exchange—$25 for 1,000 sheets.
Promissory Notes—40 cts. per lb
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb.
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

or wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. lb.

For Indentures and Agreements, 40 cts. lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevent erasure or transfer, but makes it last as long as time.

For Southern climates it is excellent, as it is superior to any other; as the moisture of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation a Mill in Morris County, N. J., of about 300 horse power, and are able to fill all orders for Paper, at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

## FIRE AND MARINE INSURANCE.

CHARTERED BY LEGISLATURE, JUNE, 1855.

*Authorized Capital,* $500,000. *Cash Capital paid in and securely invested,* $150,000.

OBED P. MILLER, Secretary. WARD COWING, President.

BOARD OF DIRECTORS.—Ward Cowing, William A. Bradford, Samuel B. Darling, Edward B. Perry, George W. Hall, F. C. Gardiner, Obed P. Miller, Thomas A. Doyle, William B. Ryder, George Cleveland, Philip Ryder.

THIS Company Insures against Loss or Damage by Fire, on Stores, Merchandise, Dwellings, Mills, Manufactories, Hotels, &c.; also on Marine and Inland Transportation Cargo Risks at the ordinary rates of premium.

**Losses Promptly and Equitably Adjusted and Paid.**

All premiums are made specific when Policies are issued, and are to be prepaid in money; and no further assessment in case of loss is to be made on the parties so insured. The advantages of a Stock System, which precludes the possibility of an assessment, are very obvious.

The Board of Directors have authorized the issues of Policies on country risks, detached on very low terms.

The Company expect to deserve the confidence of the public, by doing business on as favorable terms as any other similar institution, and by the utmost fairness and liberality in all their dealings.

Policies granted and issued to parties effecting Insurance, at once without delay, by the undersigned, at his office.

### LINCOLN'S WATER PROOF BLACKING, AND LEATHER PRESERVATIVE.

*Keep your Feet dry and you will seldom need a Physician.*

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried it soon becomes hard, stiff, and tracky; but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting, on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it also softens the leather, and it will.

*Positively wear twice as long.*

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

### THE LIVER INVIGORATOR,

PREPARED BY DR. SANFORD,

Compounded entirely from Gums,

IS ONE OF THE BEST PURGATIVE AND Liver Medicines now before the public.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, *purifying the blood*, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious attacks are cured, and, what is better prevented, by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring prevents *nightmare.*

Only one dose taken at night loosens the bowels gently, and cures costiveness.

One dose taken after each meal will cure *Dyspepsia.*

One dose of two teaspoonfuls will always relieve *Sick Headache.*

Only one dose immediately relieves *Colic*, while

One dose often repeated is a sure cure for *Cholera Morbus*, and a preventive of *Cholera.*

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for *Jaundice* removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures *Chronic Diarrhœa* in its worst forms, while *Summer and Bowel Complaints* yield almost to the first dose.

A few bottles will cure *Dropsy* by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for *Fever and Ague, Chill Fever*, and all Fevers of a *Bilious type.* It operates with certainty, and thousands are willing to testify to its wonderful virtues.

*All who use it are giving their unanimous testimony in its favor.*

*Mix water in the mouth with the Invigorator, and swallow both together.*

**Price One Dollar per Bottle.**

## STATE OF MAINE.

LAND OFFICE,
BANGOR, May 1, 1858.

IN the discharge of my duty as "Agent to superintend and manage the sale and settlement of the Public Lands" of the State, the following notice is hereby given of the

**Terms and Conditions of Sale:**

In the Revised Statutes of Maine, Chapter 5 may be found all the provisions of law in relation to

*The Sale of Lands for Settlement.*

*Sec.* 23. Out of townships located and designated for settlement, the Land Agent shall, from time to time, select, not exceeding ten in a year, to be offered for sale in lots for settlement; and publish a list of them and of the townships offered for sale and settlement in former years, in which lands still remain for sale, in some paper in each county in the State in which any paper is published, once a week for three months, within six months after the selection is so made, with the substance of so much of this chapter as relates to the terms and conditions of the sale and settlement of such lands.

*Sec.* 24. In townships so selected, in which suitable roads have not been located, the Land Agent shall cause such roads to be located as the public interest and the accommodation of the future settlement require.

*Sec.* 25. The price of the settling lots shall be fifty cents per acre, for which the purchaser shall give three notes, payable in one, two and three years, in labor on the roads in said township, under the direction of the Land Agent. The Land Agent shall thereupon give him a certificate, stating that he has become a purchaser of the lot or lots therein described, and that he will be entitled to a deed thereof, when he complies with the requirements of law. The certificate of the person appointed by the Land Agent to superintend the laying out of the labor on the roads, shall be evidence of the payment of the notes.—Only one lot, not exceeding two hundred acres, shall be granted to the same person.

*Sec.* 26. Beside the payment of the notes, every such purchaser shall be required, within two years from the date of his certificate, to establish his residence on his lot, and within four years from such date to clear, on each lot, not less than fifteen acres, ten at least of which shall be well laid down to grass; and to build a comfortable dwelling house on it.

*Sec.* 27. If the purchaser fails to perform any of the duties required of him, or to pay his notes, he forfeits all right to the land, and the Land Agent may dispose of it to another person.

*Sec.* 28. The Land Agent shall appoint some suitable person or persons in the vicinity to superintend the location of settlers, the payment of their road labor, and the performance of their several duties.

*Sec.* 29. Whoever purchases a lot of wild land of the State, not exceeding one hundred and sixty acres, and complies with the condition of purchase, may hold it with the improvements thereon, free from attachment and levy on execution, while he remains in actual possession thereof. The value so exempted shall not exceed one thousand dollars, to be set off to the owner in such portions of the lot as he directs, by the appraisers appointed to levy an execution, the same as real estate is set off and appraised on execution.

*Sec.* 30. On the decease of such purchaser, such lot and the improvements shall descend to his children, subject to his widow's right of dower, and shall not be liable to be sold for the payment of his debts, except in case his other property is not sufficient for the payment thereof; and, in that case, his children shall have the occupancy and improvement thereof, subject to the widow's dower, until the youngest surviving child attains the age of eighteen years. The remainder of the estate, after the life estate of the widow, and after the youngest surviving child attains said age, may be sold as other estates of deceased persons for the payment of such debts as the other estate of the deceased is not sufficient to pay. If he dies without issue, such lot shall descend and be disposed of as any other property.

*Sec.* 31. No such purchaser, having a wife, shall convey his said lot by deed, unless his wife joins therein, and acknowledges it to be her free act and deed, before a proper magistrate.

*Sec.* 33. The Land Agent may sell at public or private sale for such price as he considers fair and for the interest of the State all tracts of land owned by the State on islands or in incorporated towns.

Under the provisions of this law, there have been already located and designated for settlement, and by former Land Agents selected and published for sale, the following townships, viz:

| Township. | Acres unsold. | Township. | Acres unsold. |
|---|---|---|---|
| 11, R. 1, | 6 747 | 9, R. 4, | 21 312 |

| 4, R. 4, | 22,167 | 12, R. 6, | 1,413 |

In addition to the foregoing, there were located and designated for settlement, by a Resolve of the last Legislature, the following townships, viz:—Letter K, R. 1; L, and M, R. 2; East half of 2, R. 5; and 5, R. 3; all west from the east line of the State.

These townships will be lotted and ready for the market, as fast as the future wants of settlers shall require. The field notes and plans of all the townships which have been lotted for settlement, are in the Land Office, open for inspection, where all information within the means of the Agent, to secure to individuals and companies the benefits and privileges intended by the Legislature for *actual settlers*, will be cheerfully given.

Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

## Ayer's Cherry Pectoral

Has long been manufactured by a practical chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, and consequently can be relied on as genuine without adulteration. It supplies the surest remedy the world has ever known for the cure of all pulmonary complaints; for COUGHS, COLDS, HOARSENESS, ASTHMA, WHOOPING COUGH, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of consumptive patients in advanced stages of the disease. As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the American peasant to the palaces of European kings. Throughout this entire country, in every state and city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used by their most intelligent physicians. If there is any dependence on what men of every station certify it has done for them; if we can trust our own senses when we see the dangerous affections of the lungs yield to it; if we can depend on the assurance of intelligent physicians, whose business is to know; in short, if there is any reliance upon any thing, then is it irrefutably proven that this medicine does cure the class of diseases it is designed for, beyond any and all other remedies known to mankind. Nothing but its intrinsic virtues, and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies have been thrust upon the community, have failed, and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and remarkable to be forgotten.
